

BATTEN & SHAW, INC.

GENERAL CONTRACTORS • CONSTRUCTION MANAGERS

To whom it may concern,

Proffitt and Son's Inc. has done a tremendous job for us on the Roane County Physician's Plaza. Due to all of the wet and cold weather this season, it delayed our construction schedule by many weeks. Even though it was not required, Proffitt and Son's used their prefabricated systems to help get us back on schedule. Instead of showing up on the job ready to stick frame everything. Their trucks arrived with the exterior wall package prefabricated and ready to install. Within a matter of weeks the building was dried in. We are so glad that Proffitt and Son's took the initiative to plan for the unexpected so that everyone involved was able to stay productive. We at Batten and Shaw look forward to working with Proffitt and Son's in the future.

Sincerely,

Tent Batten
Project Manager
Batten and Shaw, Incorporated
